

Crisis Management

Our specialist team is empowered to help clients in three key areas, kidnap & ransom, evacuation of employees from foreign countries and contaminated products insurance (CPI). We deliver fast, flexible and sustainable solutions.

What makes us different?

Global experience – our multilingual teams support clients with a comprehensive understanding of local and cultural issues. In addition, our global programmes are available via an international network.

Empowered - Specialist local teams help clients through a single point of contact supported by the strength of a center of competence.

Innovative solutions – creating new products to meet needs. For example, an evacuation and repatriation only cover.

Client focused – We believe in a fair, transparent, tailor-made and client-centric philosophy

Long-term relationships – we are committed to supporting clients and have a proven track-record in the market for over 30 years.

Professional, discreet claims handling - our extensive know-how and many years of best practice claims settlement experience means companies can rely on professional, discreet processing and settlement of a claims.

Product Features

Kidnap & Ransom

- Flexibility – Companies can insure against specific risks by taking out single or additional cover and thus prepare effectively for an emergency.
- Global protection with no exceptions – Short-term project cover for trips to specific countries or worldwide annual cover.
- 24/7 access to crisis management service – We partner with specialist crisis management consultancies, so that policyholders get free access to the crisis management consultant around the clock.

Contaminated Products Insurance (CPI)

Companies can face threats arising from contaminated products. We help them avert health hazards from defective products, protecting their reputation and balance sheets.

- Product recall – costs, including the costs of a first party recall and of a third-party recall by the policyholder's customers or by a government agency.
- Decontamination – redesign and redevelopment costs or consultants' fees.
- Contingency – reimbursement of manufacturing costs, lost profits and the not realized profits from a decline in sales.
- Reputation – Costs of advertising activities to counter the threat of a loss of sales.
