

## Delegated Authority

We are a dedicated team of underwriting specialists committed to providing bespoke solutions within the Delegated Authority (DA) market. We strive to develop long-term sustainable relationships with our business partners.

### What makes us different?

DA is a core part of our offering and our flat structure allows us to be nimble and agile in decision making to match your needs and requirements. Our team will support you and help you evolve your business, the way you want to, within the regulatory landscape.

We have:

- Vast underwriting expertise and experience in many classes of insurance business to provide both delegated authority and single risk solutions.
- In-depth local market and product knowledge with access to dedicated regional teams who can also draw upon our global network.
- The strength of HDI Global SE and Hannover Re, we are the dedicated DA provider within the Group.

### Product Features

With full flexibility in contractual formation, we provide Agency and Binding Authority agreements, with both single and multi-line capacity, either as lead or follow line market.

We can:

- Offer our underwriting expertise across different markets, sectors and territories, with compliance and actuarial support.
- Assist with product development and portfolio management.
- Act as an investor into your business promoting sustainability and flexible solutions to help you along your journey.
- Provide industry recognised claims third party administrator relationships who are empowered to act quickly and efficiently, yet scaled to handle capacity on a global basis.
- Collaborate beyond pure capacity, be that direct or via a reinsurance route.
- Support excess and surplus lines markets.

### Who do we cover?

We have global mandates for an extensive range of classes throughout the world.

From MGAs to participating as a subscription market, as a lead or writing 100%, we are ready to collaborate with our clients across diverse lines of business within the DA sphere.

Importantly we align with our agent's capabilities to consider and target risks that are different and where commodity business may not be their driver. We can consider harder-to-place risks where the agent has a clear differentiator i.e. distribution channel, niche product and underwriting competences.
