

Actuarial Analyst

About HDI Global Speciality SE

HDI Global Specialty SE is a joint venture of Hannover Re and HDI Global, both being strong and established players in the insurance and reinsurance market. HDI Global Specialty SE is an excellent platform for putting together cross-business segment expertise and network reach. We have a global presence, delivering extensive reach for brokers and clients. Specialist local teams are highly qualified to give quick responses and informed support to the client's local operations, specifically their special, unusual or difficult insurance needs. We are dynamic, empowered and committed, giving clients the agility, stability and certainty to meet the challenges of the changing world.

An exciting opportunity has arisen to join HDI Global Speciality SE as an Actuarial Analyst based in Sydney.

About the Role:

The role entails:

- Monitor and assess portfolio profitability and perform analysis into key drivers of portfolio trends
- Provide in-depth analysis and preparation of both internal and external data
- Develop customer-level insights and associated pricing recommendation
- Provide ad-hoc analysis and reporting for a diverse array of business stakeholders
- Develop portfolio and model monitoring
- Fulfil any profitability assessments for both New Business and Renewals
- Support our Head Office in developing and maintaining Insurance Pricing models both internally and in support of external clients
- Provide rigorous performance analysis of various insurance portfolios in line with HGS performance framework
- Manage and contribute to the quarterly IBNR processes and prepare, maintain and develop actuarial datasets in support of Head Office and Appointed Actuary activities
- Ensure the provision of stable and trusted data across HDI Global Specialty – Australian and NZ branches
- Build, maintain and improve management information and monitoring reports covering various aspects of the branches activities

About You:

In order to secure this role you will need:

- Minimum 3 years general insurance experience
- Relevant undergraduate degree or post-graduate qualification in Actuarial, Economics, Mathematics, Statistics or a related field
- Must already have the right to work in Australia(e.g. residency, citizenship)
- Studying towards FIAA or Equivalent
- Strong MS Skills
- Understanding the link between reserving, pricing and portfolio monitoring
- Strong attention to detail
- Strong communication skills, both written and verbal

This is a great opportunity to pursue your career within an international insurance company with scope for career development long term.
